This was an action in replatin to decide the ownership of a binder alleged to have been unlawfully seized for rent by W. J. Battell, landlord, from John Burns, tenant.

Judgment for plaintiff with costs. T. C. Johnstone and Wm. Grayson for plaintiff; W. J. Nelson for defendant.

ANNABLE VS. BATTLETT AND FISH.

This was an action brought by G. M. Annable, against W. J. Battell and O. B. Fysh for illegal seizure of a team of horses sold by Annable to John Burns and seized for rent by Fysh and Battell.

Action dropped by plaintiff who agrees to pay costs of suit to defendants.

J. G. Gordon for plaintiff; T. C. Johnstone and Wm. Grayson for defendants.

MCBRIDE VS. BOLDERS.

This was an appeal from a decision made by Seymour Green and Lawrence King, J. P.'s, who fined McBride for allowing prairie fire to escape.

After hearing the evidence the Judge allowed the appeal and quashed the conviction made by the J. P.'s with costs to McBride.

J. G. Gordon for McBride, appellant; W. J. Nelson for Bolderson, respondent.

Minister for the Huns.

TORONTO, Oct. 11.—At yesterday's session of the home mission committee of the Presbyterian Church, it having been reported there were about 200 Hungarian families in the Riding Mountain, Whitewood and Yorkton districts, N. W. T., and that a Hungarian minister now in the States had placed his service at the disposal of the church, the committee resolved to place at the disposal of the Regina Presbytery the sum of \$600 for this work for next year provided the presbytery agreed to apply to the general assembly for leave to receive this Hungarian pastor.

THEIR LABOR COMPLETED:

LILLIS' GANG RETURN—TWO HUNDRED IN NUMBER—TRACK-LAVING AND SURFACING FINISHED.

On Sunday evening last about five o'clock the train containing Mr. Lillis' track-laying and surfacing gang, with outfit arrived at this point.

The train consisted of sixteen cars, six of which were box cars containing tables, bunks, etc., having been fixed up for boarding cars; one cooking car; eight containing tools and surfacing outfit, and the celebrated car "Jumbo" which is sixty-six feet long, sixteen feet wide, has eighty-six sleeping booths and a table capacity to seat one hundred men. The Union Jack was flying over this mammoth car and it bears the following motto from the hand of the gang artist: "Clan-a-gal track-laying and surfacing gang. Record two and three-quarter miles per day. Moose Jaw or bust."

This gang numbered two hundred men, who have spent the last two months laboring in the construction of the newly opened Soo line, under the foremanship of Messrs. Julian, Birnie, Green and Curry.

The track layers of this gang average two and three-quarter miles per day or seventy-two pound rail, thus breaking the record. The line is laid throughout with the heaviest steel manufactured.

On Monday's No. 2 most of the gang departed for Winnipeg, where they "camped out" for the night on the floor in the main waiting room in the C.P.R. depot and were paid off on Tuesday morning.

BOHARM JOTTINGS.

The Boharm correspondents appear to be too busy to write, and we will try our hand until they get through their rush.

Some of the farmers are threshed.

The yield did not come up to their expectations.

Mr. Joseph Shepley has his house nearly completed and is expecting Mrs. Shepley and daughter next week.

Mr. David Arnall expects Mrs. Arnall this month and is counting the days.

Mr. Joel Bate was very agreeably surprised the other day by the arrival of his father, Lewis Bate, of Tilsonburg Ont., Mr. Bate is an extensive stock dealer in the east and is on a prospecting tour.

Mr. John Thompson, who has been visiting his brother R. K. Thompson for the past few weeks has returned home very much improved in his health.

Mrs. Malrath started for her home on Tuesday morning.

Mr. Fowler is visiting at Indian Head.

Bert Auger has gone east for the winter.

Mr. Thos. Auger left for Maple Creek last week.

Pascoe & Sons have their stone stable nearly complete. J. J. Porter has also finished a new stable.

Professor Malett, of Pike Lake, is busy dehorning cattle on the ranches south of Boharm.

Mrs. E. N. Hopkins and Mrs. Marion Johnston spent a few days last week at William's ranch.

School has closed for this year. Miss Green, having to attend the Normal at Regina. The exam. was very satisfactory to all concerned. Master Willie Johnston carried off the prize for reading, and Grant Thompson for general proficiency.

NOTICE.

I hereby give notice that at the next regular meeting of the council I will introduce a by-law to confine a resolution passed by this council remitting the taxes due by E. U. G. McDeCarey.

W. W. Neeland.

Council adjourned.

NORTH PORTAL.

The new town of North Portal is situated on the International boundary line at the crossing of the Soo railway, twenty three miles south east of Estevan. The land in this section is a clay loam, and has every indication of being of the best quality. A number of settlers have taken up homesteads on the Canadian side of the line, and the prospect of a large immigration next spring to the American side is said to be good this portion of North Dakota being the only available land open for settlement along a railway. No boom has yet struck the place. The railway companies have done a lot of work and have extensive yards and other necessary plant for a divisional point. The depots on either side are commodious, and in addition to the accommodation necessary for railway offices, have Customs offices and bonded warehouses.

Two staffs of Customs officers are here who look after the interests of their respective Governments. There is an opening for a general store and an hotel, particularly the latter. At present there is by no means sufficient accommodation for the men who live there.

CONFERRING WITH THE PEO.

The Empire of the 4th inst says: Exactly why our Opposition friends should indulge in hilarity, when conference of members of the Government with the people on tariff matters take place, is not easy to understand. The very notion that popular wants should be got at by intelligent enquiry seems to strike them as very funny. Yet as long as the enquiry is being conducted in good faith, as it is, we doubt if the farmer will appreciate being laughed at by some of the Opposition papers as if he were a simpleton who is being taken in by these conference. One reason why Canada has been exempt from panic and commercial disturbance is because a revision of the tariff is being undertaken in a rational spirit. The Globe's suggestion that Jack the Ripper should be let loose on our fiscal system finds no favor with business men anywhere. By consulting all interests and localities the Government arrive at a right idea of what the general interest requires. This will not relieve them of their responsibility as Ministers for the policy finally agreed upon. It is not a device similar to the plebiscite on prohibition by which the Mowat Government are seeking to dodge an issue. But it affords them a sound basis for tariff revision, and that is what the country wants. Sir Richard Cartwright's idea was that he knew better than anyone else, and his policy was either to push the whole list of customs duties up to 25 percent all round—a brilliant achievement of statesmanship—or tell the leading men of the country to "go to the devil." The day for that sort of thing has passed.

NOTES AND COMMENTS.

The new criminal code makes the following provisions about raffles: "Every one is guilty of an offense and liable on summary conviction to a penalty of twenty dollars who buys, takes or receives any lot, ticket or other advice for advancing, lending, giving, selling or otherwise disposing of any property by lots, tickets or any other mode of chance whatever."

On Friday last the British Board of Agriculture did remove the cattle embargo against Norway. It is regrettable that the word Canada instead of Norway was not inserted in that order of the British Board of Agriculture removing the embargo on foreign cattle. Just a clerical error would have suited the desires of Canadian cattlemen. It is indicated, however, that this country will have her former privileges restored soon.

THE NOVEMBER DELINEATOR.

The Delineator for November is the first of the three Great Winter Numbers, and is a splendid specimen of this popular magazine. All the needs of ladies, misses, and children are fully considered in the style for the coming season, which are sensible and beautiful in themselves, and are most attractive.

Prof. Saunders has handed the following statement to the Ottawa press for publication: Twenty baskets of grapes, containing two or three bunches each of 122 different varieties of outdoor grapes were sent from the vineyard of the Central Experimental farm on Friday to the Canadian horticultural department at the World's Fair Chicago. Most of them are well ripened, and the showing of so many excellent sorts matured in this climate with only ordinary care and cultivation, will go far to dispel the erroneous ideas which still obtain in many parts of the United States as to the frost bound character of this section of the Dominion.

Some complain of the progress of Canada in comparison with the United States. Such persons are not familiar with facts, and simply base their ideas upon superficial appearances. However, it must be confessed says the Hamilton Spectator, that Canada is a little slow. Her population has increased only sevenfold, while that of the United States has increased six-fold. Her railway mileage is only a little greater in proportion to population than that of the United States. Her foreign trade is only 50 per cent greater than that of the United States. Her shipping is only three times as great in proportion to population as that of the United States. The Canadian farmer gets only 20 bushels of wheat to the acre while the United States farmer gets 13 bushels.

The disposition to share profits with employees is a pleasing feature which is becoming more prominent in the dealings between capital and labor. As a late instance of this kind we notice the presentation by the George E. Tucket & Sons company of Hamilton, Ont., of a building lot to each one of five employees who had served for 21 years with the firm. A further contribution of \$225 in cash was promised when houses had been erected upon the property. The head of the company announced that the precedent established would be continued in the future and each employee would receive a lot and \$225 in cash toward a building fund, on completion of his or her twenty-first year in the company. Incidents of this nature in the relationship between capital and labor are always a pleasure to contemplate, and that they are becoming more frequent is a happy sign of times.

The order-in-council prohibiting the importation of dried fruits, etc., from Smyrna, says an Ottawa telegram, is causing many enquiries addressed to the department of agriculture by importers. Many people are anxious to know whether figs, raisins, candied peel, etc., from various points in southern Europe will be allowed to enter the Dominion in view of the alleged existence of cholera in scattered districts. The uniform answer of the department has been that no dried fruits from any infected district will be allowed to enter Canada, although the order-in-council only mentions the district of Smyrna, as the germ of cholera might be conveyed in boxes, in the way they are commonly received, if by any possibility the germs are brought in contact with fruit at the time of packing and from the fact that the goods are not susceptible to disinfection by any of the ordinary processes. The order-in-council will not be continued of course after the epidemic disappears, the goods affected being only those picked during the period of epidemic. It is understood that the onus will rest upon importers of proving that this class of goods imported via England have not been packed during the period of the epidemic. The government does not desire to hamper commercial relations, but precautions such as those now being enforced are demanded in the interests of the health of the community.

ly displayed. A special article on Dinner and Evening Gowns will be appreciated, at this time, as will also Two Menus for a thanksgiving Dinner. The Tennis article treats of mixed doubles and tournaments. There is a well-written paper on Children's Associates, and an original Fancy-Dress Drill for an equal number of boys and girls. An article valuable to the housewife for its suggestiveness is called As Winter Comes On, and the second instalment of Household Renovation deals with walls and floors. Around the Tea table treats of current fancies. The Floral article for the month is on the culture of Lilies, and entertainment for Autumn days and a relaxation for the longer evenings is provided in a Harvest Home and a Geography Party. In addition there is continued instructions in Netting, Knitting, Crocheting, Lace-Making, etc., etc. This magazine should be in the hands of every housekeeper. SALMAGUNDI.

To point a moral and adorn a tale!

—JOHNSON

I often wonder if we have really escaped from any of the evil impulses and cruel practices of the past. Of course there can be no doubt that our manner of living has changed to a wonderful extent, and the methods we employ of inflicting pain and tyrannizing over others have become more refined. We sleep on softer beds and eat daintier food, and bathe ourselves perhaps oftener, but has the sum of human happiness been increased?

* * *

A child with an inquiring turn of mind often teaches its elders by means of the questions asked. It is not for us to enquire as to whence comes the intelligence that prompts enquiry. It is enough for our present purpose to know that inquiries are often made that confound the inquired of, and demand the exercise of thought and elements of study that might otherwise be left uncultivated. And what, pray, would a child be worth to itself or others, that never asked questions? Some of them may be hard to answer—but should they not, nevertheless, be answered?

* * *

Some good people feel and express great contempt for the little requirements of behaviour that have grown up under what are known as the forms of good society and certain variously to etiquette, good manners and good breeding, and denounce them as silly and foolish and even childish. But the true reason for the punctilios of etiquette in regard for others. St Paul expressed the kernel of it when he said "Wherefore if meat make my brother to offend, I will eat no flesh while the world standeth." It is much easier and better for us to subscribe to and observe these little things, even when they appear to us unnecessary and even silly than to go on in a course that we cannot help seeing is offensive to our friends and gives them pain without giving us any corresponding satisfaction and finally makes us disliked or pitied.

* * *

The will o' the wisp is the result of vegetable matter decaying in damp places. By the Romans of old it was called the *ignis fatuus* or foolish fire, because wanderers seeking shelter would see its light and striking out towards it would perish in the morass that gave it birth. Self-conceit is the human will o' the wisp. It is begotten in untrained corners of the human brain of rank ideas and decaying moral flowers and virtues. At times it is latent, and man jogs along life's journey attending to his business with steadfast purpose. By and by the baleful alluring light flashes up through his brain. It dances, glimmers and invites till purpose is abandoned to follow some dubious, promising venture across the rough country of speculation and gambling where so many millions have irretrievably fallen. But this fatal self-conceit dazzles the fatuous brain with the illusion that it is shrewed and cunning above its fellows, and will succeed where others have fallen and failed to reach the prize. Out of

the highway of honest industry, with out compass or bearing, the vain fool rushes wildly forward following the fitting, inconstant flame. His ways are not God's ways; they are devious and secret, till by and by he reaches the outer verge of honesty. Feeling himself on unstable ground he makes a desperate plunge and is heels over head in the slough of crime. Yet after this treacherous illusion has landed its victim behind prison bars, the senseless dot will not abandon its bright allurements; nor will he recall the lesson that some early period of his life has been red to or taught him, that he alone is safe who walks with God.

A Baby's Feet.

A baby's feet, like sea shells pink,
Might tempt, should heaven see fit,
An angel's lips to kiss, I think,
A baby's feet.

Like rose-hued sea flowers toward the heat

They stretch and spread and winkle,
Their ten soft buds that part and meet;
No flower bells that expand and shrink
Gleam half so heavenly sweet
A shine on life's untrouled brink,
A baby's feet.

An Antidote to Care.

Think that the grass upon thy grave is green;
Think that thou seest thine own empty
chair;
The empty garments thou wast wont to
wear;
The empty room where loog thy haunt hath
been.
Think that the lace, the meadow, and the
wood,
And mountain summit feel thy feet no more;
Nor the loud thoroughfare, nor sounding
shore;
All these blank space where thou thyself hast
stood.
Amid this thought-created silence say
To thy stripped soul, what am I now and
where?
Then turn and face the petty, narrowing
care
Which has been gnawing thee for many a
day,
And it will die as dies a wailing breeze
Lost in the solemn roar of bounding seas.

CHINESE IN BRITISH COLUMBIA.

In an alley running off Cormorant street, above Government street, Victoria, B. C., is located the Chinese Theatre, in which young Mongolian swells, for an admission fee of 25 cents, while away their evenings. The building is large and comprises a pit and gallery for seating purposes. The stage is of the regulation Chinese sort—a simple platform without flies or scenery or drop curtain, hung with Chinese decorations. Dimly lighted with gas, a fair view of the stage and dusky Thespians is to be had through clouds of cigarette smoke. The orchestra seated on the stage behind the performers, comprises the sam yin, ton ton, and the plain, common, barnyard gong. With these the orchestra is able to delineate in sound anything from a battle royal of Kilkenny cats to a runaway fire engine or boiler explosion. The fiercest criticism is invited from the press by the leader, who is partial to gong music and is said to be an admirer of Wagner. The play at present being produced is something of a comic opera. It deals with the love of a young couple. A matron figure in it; so does another woman's husband. It is of the spicier order and would do credit to Sardon. The leading lady is a Celestial gem, and her feet, the crown of the charm of a Chinese lady, are fit for an infant's shoe. Altogether there are six performers, three of each sex. The heavy villain is also said to be a juggler who can balance a barrel on his nose or make a guinea pig disappear in his hat. Every move of the performers is graceful, and, in delicate love scenes, the poetry of motion. Each performance is one indivisible chunk devoid of intermission, and if any one in the audience wishes to go out and "see a man" he will have to depend on the good nature of his neighbor to tell him when he gets back what has occurred in the interim. The play ends at midnight and as there is a large clock over the stage the audience can see that it is not cheated out of a minute. The best of order prevails and the plot of the comedy is talked of in opium dens and hotly discussed over smoking rice and wine—of-a-thousand-flowers."

Old Story But a Good One.

Three men of war ships, Dutch, French and English, while anchored in port, were contending with each other for the best display of seamanship, so the captain of each vessel determined to send aloft an active sailor to perform some deed of grace and daring. The Dutch captain sent a Dutchman, the French a Frenchman, and the English an Irishman. The Dutchman stood on the top of the mainmast with his arm extended. The Frenchman then went aloft and extended both arms.

Now, the Irishman thought if he could stand on the top of the mainmast with an arm and leg extended he would be declared the most daring sailor. Nimbly he climbed aloft until he reached the highest point; thence he carefully balanced himself upon both feet, extending his right hand with a graceful motion. Then he threw out his left leg until in a line with his right arm. In doing this he ingloriously lost his balance and fell from the masthead,

crashing through the rigging toward the deck.

The ropes against which his body came in contact broke his fall, and his velocity was not too great to prevent his grasping a rope attached to the mainyard. To this he hung for two seconds, then dropped lightly to the deck, landing safely on his feet. Folding his arms triumphantly, he glanced toward the rival ships and joyously exclaimed. "There, ye frogatting and sausagé-stuffed furriers, bate that if you can!"—Exchange.

PASQUA PARAGRAPHS.

The threshing machine is now in our midst. The results are in some instances below expectations, but, on the whole, fair yields will be realized.

Mr. Hooper relieves Mr. E. W. Spence, our genial operator, who left for the east on a two weeks leave of absence. On his return, Mr. Spence will take up his residence in Moose Jaw where he will be employed.

Rev. R. F. Cameron, of Granfell preached an eloquent sermon in this place on Sunday last. He left on Monday for Knox College, Toronto, via Chicago, where he will visit the World's Fair for a few days.

Miss Ethel Rothwell, teacher of Eastview left on Sunday for her home in Regina, where she will attend the Normal.

The Pasqua appointment has been divided into two fields and hereafter we will have only a bi-monthly service. Besides this new appointment Mr. Hardman will preach at Stony Beech and Fairville.

Joseph and William Hughes returned from the hills and are engaged in buying up cattle to place on their ranch. They have already secured some fine animals and will in due remove them to their winter quarters.

Deservedly Popular.

Our readers have no doubt read with interest the despatches almost weekly appearing in this and other Canadian journals, regarding cures of a most startling nature, made by Dodd's Kidney Pills. These pills have proven themselves to be a certain cure for all diseases of the kidneys and blood, such as backache, rheumatism, bright's disease, diaetetic dropsy, etc.

Enquiry amongst local druggists elicits the fact that they have a very large sale, and are an infallible cure for kidney disorders.

Dodd's Kidney Pills are manufactured by Dr. L. A. Smith & Co., Toronto, and are sold everywhere, or by mail on receipt of price, 50 cents a box, or six boxes for \$2.50.

THE GREAT SOUTH AMERICAN NERVINE TONIC AND STOMACH AND LIVER CURE

The Wonderful HEALTH BUILDER & NERVE FOOD
Chronic Diseases are caused by Deranged Nerve Centres
at base of the Brain.

ATC discoveries have absolutely proven that the Stomach, Liver, Lungs, and indeed all internal organs, are controlled by the nerve centres at the base of the brain. The manufacturer of SOUTH AMERICAN NERVINE has studied this subject closely for more than twenty-five years, and has lately demonstrated that two-thirds of our Chronic Diseases, are due to the imperfect action of nerve centres, either within or at the base of the brain and not from a derangement of the organs themselves; hence that the ordinary methods of treatment are wrong.

As all know, a serious injury to the spinal cord, will at once cause Paralysis of the body below the injured part, it therefore will be equally well understood, how the derangements of the nerve centres, will cause the derangement of the different organs of the body which they supply with Nerve Fluid or Nerve Force.

The wonderful success of SOUTH AMERICAN NERVINE is due alone to the fact that it is based on the foregoing principle. The use of a single bottle of this remedy will convince the most incredulous. It is indeed, a veritable Nerve Food and Will Relieve in One Day the varied forms of Nervous Disease and Stomach Troubles.

Nervous Diseases.

This class of diseases, is rapidly increasing each year, on account of the great wear our mode of living and labor imposes upon the nervous system. Nine-tenths of all the ailments to which the human family is heir, are dependent upon nervous exhaustion, impaired digestion, and a deteriorated and impoverished condition of the blood. The SOUTH AMERICAN NERVINE is a great nerve food and nerve builder and this accounts for its marvellous power to cure the varied forms of nervous disease, such as Neuralgia, Nervousness, Nervous Prostration, St. Vitus' Dance, Nervous Choking, Nervous Paroxysms, Twitching of the Muscles, Hot Flashes, Mental Despondency, Forgetfulness, Sleeplessness, Restlessness, Nervousness of Females, Palpitation of the Heart, Sexual Weakness, etc., etc.

A SWORN CURE FOR ST. VITUS'S DANCE.

Montgomery, Indiana.
My daughter twelve years old, had been afflicted for seven months with chorea with St. Vitus's Dance. She was reduced to a skeleton, could not walk, could not swallow anything but milk; I had to handle her like an infant. Doctors and neighbors gave her up. I commenced giving her the SOUTH AMERICAN NERVINE, and the effects were very surprising. In three days she was rid of the nervousness, and rapidly improved. Four bottles cured her completely. I think the SOUTH AMERICAN NERVINE the grandest remedy ever discovered, and would recommend it to everyone.

A WONDERFUL CURE FOR INDIGESTION and DYSPÉPSIA.

Loss of Appetite, Weight and Tenderness in the Stomach, Sour Stomach, Pain in the Stomach, Wind upon the Stomach, Nausea and Sick Stomach, Sick-Headache, Hiccough, Water-Brash, Heartburn, Vertigo and Dizziness, Sleeplessness, Frightful Dreams, etc.

The Stomach suffers more than any of the other organs from disease, because into it are taken so many indigestible and irritating substances as articles of food. In its great effort to digest these, it soon becomes weakened and diseased. Under such circumstances, it is not wonderful, that so many complain of Indigestion and weak stomachs. When the Stomach fails to digest and assimilate the food, the whole body falls into a state of weakness and decay, for Nature has decreed that the body must constantly receive nutriment through the Stomach, to repair the waste of tissue constantly going on in the system.

The South American Nervine

Is probably the greatest remedy ever discovered for the cure of all Chronic Stomach troubles, because it acts through the nerve centres. It gives marked relief in one day, and very soon effects a permanent cure. The first bottle will convince anyone that a cure is certain.

WHAT EX-MEMBER OF PARLIAMENT, REUBEN BROWN, SAYS.

I have been for about ten years very much troubled with indigestion and dyspepsia, have tried a great many different kinds of patent medicines, and have been treated by a number of physicians and found no benefit from them. I was recommended to try SOUTH AMERICAN NERVINE. I obtained a bottle, and I must say I have found very great relief, and have since taken two more bottles, and now feel that I am entirely free from indigestion, and would strongly recommend all my fellow sufferers from the disease, to give SOUTH AMERICAN NERVINE an immediate trial.

It will cure you.

In Bed Six Years

HARTFORD CITY, Blackford Co., Indiana, June 8, 1893.
South American Medicine Company.

GENTLEMEN:—I received a letter from you May 27, stating that you had heard of my wonderful recovery from the sickness of six years duration, through the use of South American Nervine, and asking for my testimonial. I will gladly state the facts and how I was delivered from my pain and suffering. I was nearly thirty-five years old, when I took down with nervous prostration. Our family physician treated me, but without benefiting me in the least. My nervous system seemed to be entirely shattered, and I constantly had to vomit spells, and these would be from eighteen to twenty days in duration. That I could not retain anything on my stomach. Many consultations were held over my case, but they all agreed that I would never leave my bed. During the years I lay sick, my folks had an eminent physician from Dayton, Ohio, and two from Columbus, Ohio, to come and examine me. They all said I could not live. I got to having spells like spasms, and would lie cold and stiff for a time after each. At last I lost the use of my body—could not rise from my bed or walk a step, and had to be lifted like a log. All the time I suffered intense pain, and taking almost every known medicine. Part of the time I could read a little, but day and night I suffered. I finally concluded to try one bottle. By the time I had taken one and one-half bottles I could rise up and take a step or two by being helped, and after I had taken five bottles in all I felt real well. The shaking went away gradually, and I could eat and sleep good, and my friends could scarcely believe it was I. I am sure this medicine is the best in the world. It was all God's work to me, and I believe it saved my life. I give my name and address, so that if anyone doubts my statement they can write me, or our postmaster or any citizen, as all are acquainted with my case. I am now forty-one years of age, and expect to live as long as the Lord has me for me and do all the good I can in helping the sick.

MISS ELLEN STOTLE.

Will a remedy which can effect such a marvellous cure as the above, cure you?

A MINISTER OF THE GOSPEL SPEAKS.

PETERBORO, Ontario, June 27, 1893.

To the Proprietor of South American Nervine:
Dear Sir:—I have much pleasure in recommending the great South American Medicine to all who are afflicted with nervous prostration and indigestion. I found great relief from the very first bottle, which was strongly recommended to me by my druggist. I also induced my wife to use it, who, I must say, was completely run down and was suffering very much from general debility. She found great relief from SOUTH AMERICAN NERVINE, and also cheerfully recommends it to her fellow sufferers.

Sick Headache.

Is dependent on deranged nerve centres and indigestion. Hence its cure must come through building up the nervous system and curing the Stomach. SOUTH AMERICAN NERVINE will absolutely cure this dreaded malady and prevent its return.

The C.P.R. authorities give the following notice to children playing and parties disposing of milk, etc., upon their premises:—"Any person or persons selling produce on the platform or in the yard belonging to the C.P.R.; or children on the platform, except as passengers, will be dealt with according to the law.

Relief in Six Hours.—Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight to physicians on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by W. W. Bole.

The Canadian Pacific exhibit car is now making its way through some of the farming districts of Yorkshire. There were 700,000 people on the World's Fair grounds on Monday last. It was "Chicago Day," and the number is the greatest yet recorded, and breaks the one-day record of Paris by an overwhelming majority. The total number of paid admissions since the opening of the fair is 16,492,070. The greatest day at Paris was 397,150, and at Philadelphia 217,526.

On Wednesday Mr. James Fell, of Qu'Appelle Valley, was brought up before Mr. Seymour Green, J.P., charged with larceny of green poplar trees off the premises of Mr. Wm. Riddell. Mr. Fell was convicted and fined \$15 and costs. W. J. Nelson appeared for defendant; Mr. Riddell appeared on his own behalf.

The Post Office Department at Washington has ruled that a letter is the property of the sender and may be recalled by him until delivered to the party addressed, the government being common carriers in his behalf. This seems a fair and reasonable decision and a similar one at Ottawa would set the public mind at rest on the matter and perhaps avert costly litigation.

The Stoney Creek bridge on the C. P. R. between Rogers' Pass and Donald, in the Selkirks, has borne the proud distinction of being the highest wooden bridge in the world, being 296 feet high. It will soon sink into insignificance as a steel bridge, the arch spans and most of the girders being already in position, and when the timber is removed the highest wooden bridge will not be at Stoney Creek.

C. P. R. engine No. 408, on which poor Steve Whyte lost his life in the Fraser River last March, was put on board a scow at Revelstoke wharf and taken down to Nakusp on Monday morning. The engine weighed about eighty tons. The water on the lake was rather rough, and those on board the scow had an anxious time with such a heavy deck load.

Miss Simpson, assistant teacher in the public school, left last week to take a session at the normal in Regina. Principal Perrett leaves to take a similar course as soon as a suitable substitute can be obtained. Miss Saunders of Moose Jaw, takes Miss Simpson's place during the latter's absence.—Medicine Hat Times.

The Central Assiniboia Teachers' Association will meet in convention at Qu'Appelle on the 18th and 19th inst. An excellent programme has been prepared and there is good reason to expect pleasant and profitable meetings. Teachers, trustees and all others interested in education are cordially invited to be present and take part in the proceedings. Prof. Goggin will deliver a lecture on the evening of the second day.

Kingston News.—The elocutionary entertainment given by Sara Lord Bailey, to a crowded house was an intellectual treat, the like of which Kingstonians have rarely the opportunity of hearing. By her easy grace and clear, full accentuation she won the sympathy of her appreciative audience both at the beginning and held it right through to the end. She was able to adapt herself either to tragedy or comedy." She will appear here in the town hall the second week in November.

NOTICE.

THE following is a summary of the Regulations with respect to the manner of recording claims for MINERAL LANDS other than Coal Lands, and the condition governing the purchase of the same.

Any person may explore vacant Dominion Lands not appropriated or reserved by Government, and may search therein, either by surface or otherwise, prospecting for mineral deposits with a view to obtaining a mining location for the same, but no mining lease shall be granted until actual discovery has been made of the vein, lode, or deposit of mineral or metal within the limits of the location of claim.

A location for mining, except for Iron or Petroleum, shall not be more than 1,500 feet in length, nor more than 600 feet in breadth. A location for mining Iron or Petroleum shall not exceed 160 acres in area.

On discovering a mineral deposit any person may obtain a mining location, upon marking out his location on the ground in accordance with the regulations that prevail, and filing with the agent of the Dominion Land for the district, within sixty days from discovery, an affidavit in form prescribed by Mining Regulations, and paying at the same time an office fee of five dollars, which will entitle the person so recording his claim to enter into possession of the location applied for.

At any time before the expiration of five years from the date of recording his claim, the claimant may, upon filing with the Local Agent that he has expended \$500 in actual mining operations on the claim, by paying to the Local Agent therfor \$5 per acre, cash, and a further sum of fifty dollars to cover the cost of survey, obtain a patent for said claim, as provided in the said Mining Regulations.

A copy of the Regulations may be obtained upon application to the Department of the Interior.

A. M. BURGESS,
Deputy of the Minister of the Interior.

Ottawa, July 1893. 3c.

Homestead Regulations.

All even-numbered sections of Dominion Lands in Manitoba or the North-West Territories, except 8 and 20, which have been reserved for the construction of roads, are reserved to provide wood lots for settlers, and no section may be pre-empted by any person who is sole head of a family, or male over eighteen years of age, to the extent of one quarter section of 160 acres, more or less.

ENTRY.

Entry may be made personally at the local land office in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, or to the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to make entry for him. A fee of \$10 is charged for an ordinary homestead entry, but for lands which have been occupied an additional fee of \$10 is chargeable to meet inspecting and cancellation expenses.

HOMESTEAD DUTIES.

Under the present law homestead duties may be performed in three ways, and on making application for entry the settler must declare under which of the following conditions he elects to hold his land:

1. Residence for two years and nine months anywhere within two miles of the homestead quarter section, and afterwards actual residence in a habitable house upon the homestead for three months prior to application for patent. Under this system 10 acres must be broken the first year after entry, 15 additional in the second, and 15 in the third year; 10 acres to be in crop the second year and 25 acres the third year.

2. The five-year system, under which a settler must reside where for the first two years (but must perfect his entry by commencing cultivation within six months after the date thereof), breaking five acres the first year, cropping those 5 acres and breaking 10 acres additional the second year, and also raising a habitable house before the end of the second year. Under this system a commercial residence on the homestead at the expiration of two years from the date of entry, and thereafter reside upon and cultivate his homestead for at least six months in each of the three next succeeding years.

APPLICATION FOR PATENT.

may be made before the local agent, or any homestead inspector.
